Subject: DRAFT OMB meeting material
OMB Review through 01.20.2017 09-12-2016.docx
Upcoming OMB Nonsignificant Determinations 09.12.2016.docx

Hello All –

Thanks for walking through your lists/schedules at lunch today. Attached is draft meeting material for your offices from our staffs' coordinated efforts on this for my upcoming meeting with OMB – in a couple places I notice this is different than the info we talked about earlier today, so we need to make sure we do one final cross walk. Please review this material closely and have your staff send final edits to Nicole Owens by 3pm on Tuesday.

The first attachment should contain all actions that are expected to be sent to OMB for review between now and January 20, 2017 and actions that are currently under OMB review. Please review this list to ensure it contains all actions expected to be sent to OMB and that the Planned Date to OMB and Planned Signature Date are correct for each action. Note that if the number of days between the Planned Date to OMB and the Planned Signature Date for an action is less than 90, there should be an expedited review request in the Notes column.

The second attachment should contain all actions that are expected to be signed between now and January 20, 2017 for which we plan to ask for a non-significant determination and actions for which we are awaiting a determination.

Jim, please confirm that SAN 5381 (LRRP Public and Commercial Buildings) should remain on the first list. Please also confirm that we are seeking a non-significant determination for all 6 of the new TSCA actions listed (though we know likely outcome on a couple) and that the planned signature dates for each of these is correct. We've also had some inquiries from OMB about an upcoming chlorpyrifos action, so please think about how that should be integrated into this material.

Joel, please look at the dates for SAN 5715 (Six Year Review), I think those can be tightened up. For SAN 5857 (Oregon), should we plan on trying to sign this before the consent decree date? Please also take a look at the signature dates and expedited review requests for SAN 5856 (Maine) and SAN 5724(UCMR4), they don't seem to be consistent.

If you have any questions, let me know or your staff can contact Nicole at 564-1550.

Thanks again,

Laura
